

Our technological innovations boost the energy market. With our digital expertise and our market know-how we are actively promoting the energy transition. Likron has a stable and sustainable business model with strong growth potential. For about 10 years we have operated in a highly competitive environment. We place particular emphasis on agility and openness in our collaboration.

Would you like to join us in making the energy markets ready for the future? Our international team of around 40 experts is looking for a

Software Developer C# .NET (m/f/d)

Permanent position, full-time · Munich

These tasks await you

- Work in an agile team for our SaaS platform implemented in C# .NET for power trading on the exchange
- Contribute in maintaining, extending, and modernizing the platform and its architecture
- Create very good, testable and maintainable code, as well as the corresponding technical documentation
- Extend the API of our service and sometimes work with our customers' developers to find solutions

What you need to succeed

- A successfully completed degree in a natural science subject or in computer science
- Good knowledge of C# .NET
- Knowledge of AWS, Docker or Python is a plus but not a hard requirement
- Enthusiasm for new technologies and eagerness to learn and grow with the team
- Interest in exchanging ideas with our business departments and our customers
- A goal-oriented, independent working style
- Fluent English, German is a plus

Why you should become part of the LIKRON team

 Innovative, growing company

 Creative work environment with great learning opportunities

 Attractive salary with profit-sharing

 30 days annual leave

 Flexible working hours and working from home

We are looking forward to your application!
